Labor: All Labor Warranties are exclusive of \$75 trip charge
Trip charge may be invoiced on all visits after 60 days

Chlorine-free® 5-Year Equipment/Parts ONLY. No Labor Warranty. Showroom repair or replacement available at no charge. All warranty work guaranteed at trip charge rate only. Trip charges will be invoiced and will require timely payment to maintain all warranties, per respective manufacturer.

Installations & Deliveries:

Quoted installations include the following for each product. Pristine Water Co. cannot perform any electrical panel or disconnect labor.

Spa System: Includes chamber and pressure switch installed on pressure line or chamber or independent timer plugged into wall outlet.

Pool System: Includes chamber installation and plug-in of 110 V Control box to existing 110 V outlet. Does not include: installing 220 V timer or wiring to existing timer or install of 110 V outlet. Programmable units must be specified to 220V or 110V and pump relay option defined before Install.

POE Systems: Includes chamber and flow switch install, water valve plumbing and calibration, mounting of drain line(s). Also included up to 30' of replacement pipe and all fittings. Does not include removal and disposal of softener, flush of water heater (recommended), wiring of 110V outlet. Well water turbo requires three plugs.

Pool Filters: Includes installation of filter and backwash valve. Does not include replacement of any ball or gate valves. Pump seals or other leaks. Does not include removal of existing filter.

Pool Heaters: Includes plumbing of heater, set aside previous. Does not include gas or electrical work or disposal of older heater. NOTE: Heaters above 180,000 BTU require minimum ¾" gas line.

** All charges above normal installation expense will be quoted and are payable upon completion of the work, and/or invoiced.*
